Obsidian SIGNATURE

Obsidian Signature Interiors | London, Working primarily on residential projects for exclusive, international clients, Obsidian Signature Interiors' bathroom featured here is a one-of-a-kind design for a space in the exclusive St. James's district. Sleek and sexy, this bathroom incorporates traditional elements in a contemporary way. Black onyx and black obsidian line the floors, walls, and countertops giving the space a dark and dramatic feel. The focus of the room, however, is immediately the backlit, honey onyx shower. It is the same material framing each of the two mirrors situated above the vessel sinks. Overall, the space is sophisticated and very of the moment, yet retains an essence of warmth and timelessness.
